Undertaking by Training Uke: I promise to be diligent in arranging with the candidate suitable times for extra practice, to make myself available for communications from the candidate, to support the candidate's preparation primarily by providing ukemi to help drill the required techniques, repeatedly and exhaustively. I will be honest with the candidate about my opinion of his or her readiness and will communicate regularly with Sensei regarding the candidate's progress and any questions arising out of our practice. I understand that this is an opportunity for me to refine my own art, as much as it is for the candidate.
